

Arboretum Memorial Stones

The Arboretum is a special place for many people, and our Memorial Garden was created to provide comfort, connection, and peace for those that have lost a loved one while also providing crucial support for the Arboretum. The Garden was designed to be easily accessible year round, provide a shaded place to sit and reflect, and offers a lower cost memorial opportunity for our community.

Each stone has been hand selected from naturally tumbled Willamette River stones, which weather nicely with time.

Each memorial stone includes an engraving with the name of the honoree and brief other text or design elements. As each stone is unique, and the available surface area for engraving is different for each one, design will be determined by the chosen stone.

Required donation: \$2,500

Stone term length: 10 years (may be renewed before the expiration)

At least $\frac{1}{3}$ of donation will be added Mount Pisgah Arboretum's endowment, creating a lasting legacy. The remainder will support Arboretum programs, care of the site, and maintenance of the Memorial Garden.

We would be happy to show you the Memorial Garden and available stones. Please contact Leisha Wood for more information and to schedule an appointment, Development@MountPisgahArboretum.org or 541-747-3817.
